

Introducing the ASAP *Kids for a Cure Club*

What Is It?

ASAP is excited to announce a new program developed especially for young people. Kids For A Cure Club is designed for children and teens ages 6 to 19. Some of the goals include helping children find ways to cope with chronic illness, providing an outlet for kids to meet and share with others, encouraging good citizenship and empowering young people by providing materials and support for those interested in promoting awareness or undertaking fundraising projects.

What Are the Benefits?

Kids will receive birthday cards and friendly encouragement when ASAP is notified of an upcoming hospitalization. Special events for Club members will be held at the ASAP annual conference.

Exclusive materials and support are available for those Club members interested in promoting awareness or holding a fundraiser to benefit ASAP. Request a KFC 'Get Started!' Kit for more details or contact info@ASAP.org.

Who May Join?

Children and teens aged 6 to 19 may join Kids For A Cure Club. A diagnosis of SM and/or CM in a young person, in a family member or a friend is not a prerequisite. The only qualification for Kids For A Cure Club membership is an interest in ASAP.

How Does a Person Join Kids For A Cure Club?

Fill out the Kids Club form and make sure a guardian signature is included.
