Part II Section C Line 17 a The organization meets the facts and circumstances test

because it maintains a continuous and bonifide program for solicitation of funds from the

general public and the community it serves. Many volunteers are involved in fundraising

events which generated gross income of \$40,017. It should be noted that the percentage of

revenue which comes from royalties skews the ratio of public support to the total. The

royalties are from oil and gas minerals which were bequeathed to the organization

Part II Section C Line 17 a years ago as non producing minerals. During the past five

years these minerals have been developed and have generated a very significant revenue

stream to the organization. They were in fact, the result of a testamentary gift and

should not cause the organization to be penalized because the revenue is large. This

revenue stream will fluctuate with the rise and fall of energy prices and depletion of the

mineral reserves so that it will eventually be exhausted. These funds are used in the

Part II Section C Line 17 a support of the programs which serve those affected by the

disorders and to fund medical research for better treatment methods for those suffering

from syringomyelia and chiari malformation and to pursue a cure.
